Next Monday ratepayers of the Didsbury Municipal Hospital District will be asked to vote on a \$38,000 hospital by-law. During a brief electric and rain-storm Sunday evening a bolt of lightning struck the implement shed on Ben Krueger's farm northwest of town, causing a fire to start between the studding in the double-boarded attic.

No one was at home at the time but when Mr. Krueger and family returned home a short time after the bolt struck they noticed flames licking through a hole in the wall and were able to extinguish the fire before any serious damage occurred. The building contained a house trailer, combine, two tractors and other valuable machinery.

## Wilson-Buhr Nuptials Held Last Wednesday

Baskets of peonies formed a floral setting for the afternoon double-ring ceremony solemnized Wednesday at the Evangelical Church in Didsbury, when Joyce Verna Buhr became the bride of William James Wilson.

Rev. A. J. Grams read the marriage vows to the daughter of Mr. and Mrs. E. Buhr of Didsbury and the son of Mr. and Mrs. J. Wilson of Rocanville, Saskatchewan.

The bride, given in marriage by her father, looked lovely in a floor-length gown of white satin and net, and her veil misted from a satin Juliet cap trimmed with seed pearls. She carried a bouquet of red roses.

The bride was attended by Miss Jean Rennie and Miss Deloyce Goetjen, who wore net floor-length gowns of yellow and mauve respectively, with matching headresses. They carried bouquets of Ko-Ko-Mo carnations. The flower girl, Patricia Joyce Fildes, niece of the bride, wore a blue organdy frock over a hooped tulle petticoat and carried a colonial bouquet of roses, carnations and sweetpeas.

The bride's mother wore a frock of teal with rust and cream accessories and a corsage of Ko-Ko-Mo carnations. The groom's mother wore a rose frock with white accessories and white carnations.

The groom was attended by Jim Burnett of Swift Current and the ushers were Bert Buhr and Ross Fildes. The wedding music was played by Mrs. Jean Broadhurst and the soloist, Mr. Ward Sherrick, sang "Because," and "A Wedding Prayer."

The reception was held in the prettily decorated basement of the church, where the bridal couple and their parents received 70 guests. The toast to the bride was proposed by Mr. H. C. Buhr, uncle of the bride.

Mr. and Mrs. Wilson left on a honeymoon trip to the States wearing matching suits of blue-grey. Mrs. Wilson's ensemble was completed with accessories of deep red and accented by an orchid corsage.

Out-of-town guests included Mr. and Mrs. J. Wilson, Mrs. Shirley Rosie and son, Chris, of Rocanville, Sask.; Mr. A. Patience, Bethune, Sask.; Mr. and Mrs. Dick Harder, Mr. and Mrs. Anderson, Miss Bea Trollope, Miss Doreen Gillette, Mr. and Mrs. Don McDonald, all of Calgary; Mr. and Mrs. Cliff Scheeler, Edmonton; Mr. and Mrs. H. Buhr, High River; Mr. and Mrs. Bill Blaney and Mr. and Mrs. Bob Oliver of Gleichen, and Mr. and Mrs. P. Buhr and daughter, Sharon, of Fort William, Ontario.

**JIMMY PERKINS**, 16 months old, who was found sitting in the middle of the road clad in sleepers and crying as if his heart would break. At a receiving hospital doctors pronounced him none the worse after his exposure in the chill morning air and his father later found him at the Hollywood, Calif., police station (above) enjoying all the attention he was getting from his new "play-mates."

### LIFE

A man comes into the world without his consent and leaves it against his will. On earth he is misjudged and misunderstood. In infancy he is an angel; in boyhood he is a devil; in manhood he is a fool. If he has a wife and family he is a chump; if a bachelor he is inhuman. If he enters a public house he is a drunkard; if he stops out he is a miser. If he is a poor man he has no brains; if he is rich he has had all the luck in the world. If he has brains he is considered smart but dishonest. If he goes to church he is a hypocrite; if he stays away he is a sinful man. If he gives to charity it is for advertisement; if he does not he is stingy and mean. When he comes into the world everybody wants to kiss him; before he goes out everybody wants to kick him. If he dies young there was a great future before him; if he lives to a ripe old age everybody hopes he has made a will. Life is a funny proposition!

Borrowing Through Farm  
Loan Board Extended

Mortgage loans to farmers up to \$10,000 on first mortgage and up to \$12,000 on combined first and second mortgage with chattel security, may now be made by the Canadian Farm Loan Board, as a result of amendments passed at the present session of Parliament, according to an announcement made by the board. Previously the largest possible loan was \$6,000. The board lends to farmers for all legitimate farm purposes, taking as security a first mortgage on farm land. Formerly, when a combined first and second mortgage loan with chattel security was made, the second mortgage loan could not be used to buy land, but this restriction has been dropped. Under the amendments the board can lend up to 60 per cent of the appraised value of the land on first mortgage, as compared with 50 per cent, which was the limit before the recent amendments. Current interest rates are 5 per cent on first mortgage and 5½ per cent on second mortgage. The board anticipates a substantial increase in the demand for loans under the new set-up.

## LOCAL NEWS WANTED

The Pioneer staff cannot make a house-to-house canvass for news every week, but we are always glad to have any items phoned or written up. Don't be afraid to give plenty of detail because it is easier to cut down news than to expand it. We want news of your holiday visitors, the fish you've caught, the garden which is flourishing, the birthday party, the tea for a visitor, the concert or party you've been at in another town, the wedding you've attended, and a dozen other such items. When you see items about your neighbors it means that they have co-operated with The Pioneer, when one of the staff phoned; or still better, they have co-operated by phoning or writing in items. Please let us have news as early in the week as possible and let us know about the events which are coming up, so that we can put them in the office diary for future reference. People have a habit of forgetting about events once they are over, but our diary never forgets.

Successful Camp Meeting  
Closes Monday

Large crowds have gathered on the College Campus each evening to hear the evangelist, Rev. Gordon Wishart of Toronto. His dynamic messages have been greatly appreciated by all listeners. During the forenoon Mrs. Wishart conducted Young People's services. Young folk over 12 years of age listened most attentively to messages vital to Christian youth. Both speakers stressed the Christian life from the practical standpoint of daily living, and emphasized this need to both young and old as an effective witness for Christ in any community.

Mrs. Vera Forrest put on skits each day at 1:30 p.m., wherein methods of Sunday School extension work might be accomplished. This visual aid given negatively and positively was most instructive and will no doubt lead to greater effectiveness in schools throughout the conference.

The children's workers were Miss Marion Ely of Galahad and Miss Lois Salzman of Acadia Valley. They registered over 30 children in their classes and met regularly each morning and immediately after dinner.

On Wednesday, July 9, the Youth Fellowship, under the leadership of their director, Mr. Peter Waldrin, presented a most interesting program. Vital topics on youth work within the church were given by three young pastors: Mr. William Cox of the Valley; Mr. Orland Boettger of Headley; and Mr. Willard Swalm of Bergen. The report on Gull Lake Youth Camp showed progress, and the society anticipated a larger attendance of youth at this camp this summer, when they meet again on July 29th.

On Wednesday afternoon Rev. A. B. district superintendent of the conference and chairman of the camp, held the induction service for the new president of the College. This was a most impressive service as the charge from the church was given Rev. Donald Taylor. After this service, Mr. Taylor presented the challenge to the church, soliciting their continued support both materially and influentially. The offering taken for the College will be used to aid in meeting the growing requirements of the institution in these days of mounting costs of operation.

On Friday the Women's Missionary Society, under its director Mrs. Lydia Suder, presented Miss Myrtle Anderson of Nigeria, West Africa, as speaker. The message on the work there was illuminating and the conference will understand even better than before the problems and the needs of the missionaries. In the afternoon, Dr. Roy Adams, newly elected general secretary of the U.M.S., brought to a large audience the need of missions graphically. Mr. Adams has had wide experience as a missionary in Japan, Korea and China, and has recently completed a world tour of Missions. The offerings of the day were in keeping with the mounting cost of missions, and the financing of new recruits who will leave this fall. Among those going is Miss Beverly Redfield, B.N., who will leave for Nigeria, West Africa, some time this fall.

With dormitories filled to capacity and crowds daily on the increase, the camp of 1952 has been a blessing to all who have had the privilege of attending.

On Monday, July 14, the annual conference convened, which again brought to a close an effective year of Christian service for the United Missionary Church of the Northwest.

## IT'S AN ILL WIND

There is one blessing in the outbreak of foot and mouth disease. It has made the federal government and especially Agriculture Minister Gardiner realize the importance of levying interprovincial trade free, says The Financial Post.

Though the basic right is guaranteed in the BNA Act, a year ago Mr. Gardiner tried to trample on it. Just before the end of the session he rushed through parliament his notorious Dairy Products Act. A few months ago he had a plan to test of the sort of medicine he proposed to administer under his Dairy Products Act. Following the outbreak of foot and mouth disease, however, he has slipped embargoes on western livestock. His eyes were opened to the danger of provincial restrictions. For that heel and cowshed we can thank foot and mouth disease.

## CHRISTIAN SCIENCE

"What is the real meaning of life?" On Sunday this question will be expounded in Christian Science churches. The topic of the Lesson Sermon is "Life," and it will contain this selection from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "This is life eternal," says Jesus, — is, not shall be; and then he defines everlasting life as a present knowledge of his Father and of himself—the knowledge of Love, Truth, and Life." (140: 4-7). This is based on the words of the Master himself: "And this is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent." (John 17: 3).

### VOTE "YES" FOR BETTER HOSPITALIZATION

Next Monday, July 21st, a vote will be taken on the hospital by-law, details of which have been brought to you through the columns of this newspaper, a folder prepared by the Hospital Board and, no doubt, by word of mouth.

We have been a resident in your hospital district for but a few short months and feel unprepared to advocate any great changes to those of you who have spent so much time, and money, here. You know, or certainly should know, the advantages or shortcomings of the proposed hospital addition.

However, we have lived in other districts where hospital accommodation was inadequate. We've personally seen expectant mothers, and others, waiting in halls and corridors because space could not be provided for them in wards. Does that situation exist here? If it does don't you think it should be remedied?

The financial angle enters the picture, but definitely. It's going to cost you more money in taxes. Is it worth it? We say yes, it is worth it. Being fortunate, so far we have never had to "fight" for hospital space, but it could happen to anyone. We know people who have been unable to get accommodation — it must be a very unpleasant experience.

There are critics of the plan, such as there are of any change, and rightly so. People want to know why, when, where and how much about anything. The Hospital Board have done their utmost to give you all available information and any questions you may have can be answered by contacting any member of the board.

The vote takes place Monday! Vote "yes" for better hospitalization in this district.

### COOLING DOWN A SLOW BURN

When we come to a fast simmer or a slow burn over some subject or other, we always find that writing an editorial about it is a good way of reducing the heat. We recommend it to everyone who gets steamed up readily. Selecting ideas, turning them into sentences and wrestling the sentences into any kind of form, soon brings down the blood pressure. Shoot off your face and all you do is get madder or possibly send up your blood pressure. When you've finished writing down your ideas you'll find you modify your opinions and straighten out your thinking in the process. Opinions look different on paper than they sound on the air and a lot of them get scrapped after you take a good look at them in black and white. —Nanton News

### Agricultural SERVICE BOARD NOTES

W.K. Snyder,  
Field Supervisor

**GRASSHOPPERS:** We are faced with a new menace again this summer in the form of grasshopper damage. I have recently inspected a field in the Rugby district, at the request of Mr. Alex Blain, and we discovered that grasshoppers were very active in a field of barley.

After all the wet weather we did not expect that grasshoppers would be a problem this year but it appears that we will all have to be on the alert for this kind of damage.

If you notice that the vegetation is being eaten off at varying heights from the ground and that there is a very jagged break that shows evidence of being eaten by some rodent or insect, the likelihood is that grasshoppers are at work. Breeding ground and nesting ground of hoppers is usually the edge or grass strip surrounding the fields and while they are very young they confine themselves to this breeding and hatching area but in a matter of days of very warm weather they grow rapidly and begin to move out into the grain fields bordering their hatching area, and if not checked in the early stages, can completely clean up a grain field and then move on to new hunting grounds.

If you are interested in controlling these pests we have the solution for you. It is Aldrin — a liquid which is very poisonous and can be applied to your field with your weed sprayer. It requires only 2 1/2 of a pint of Aldrin concentrate diluted in the required amount of water to spray one acre, at a cost of about 35c per acre for the Aldrin spray. All grasshoppers which are contacted by spray or which eat treated vegetation, will be killed within 24 hours or less.

Once grasshoppers have come in contact with Aldrin, either externally (through direct spray) or internally (by swallowing only a few nibbles of poisoned vegetation) they cease feeding at once and soon die. If you have evidence of grasshopper damage and want to control them, contact your Field Supervisor immediately. The Municipal Office has Aldrin spray on hand.

### HON. DAVID URE EXPANDS FARM OPERATIONS

D. A. Ure, Alberta's minister of agriculture, purchased the entire herd of purchased Shorthorn cattle from E. L. Clarke and Son, Edmonton.

These cattle were imported during the past winter by Mr. Clarke and Son and consist of 16 females and two bulls. The herd sire is Calrossie Royal Welcome, bred by John and D. P. MacGillivray of Scotland and was a first prize winner at the 1951 Perth bull sale.

All the females in the Clarke herd are sired by Calrossie Knock out or by Aldie Golden Conqueror. This was the entire Strathallan Shorthorn herd which the Clarks purchased from Sir James Denby Roberts.

Now Mr. Ure has 75 head of registered Shorthorns. Besides, he brought Killarney Norseman, fifth last spring.

Urealta is the herd name selected and in addition to the Shorthorn herd more than 300 head are kept, most of these being large English Whites.

### WHO SAYS IT'S A GAMBLE!

Always we are asked to hear somebody say: "Farming is a thrifty gamble, and farmers are the biggest gamblers on earth." To speak of farming and farmers in this way slanders this noble occupation and those who follow it.

Farming is not gambling at all. In gambling nothing is produced. What one person wins, another loses. The winner gets something for nothing. Gambling has in it the evil of theft — even though the victims voluntarily expose themselves to losses.

Farming is not a game of getting something for nothing. Farmers do take chances, but they continually face great uncertainties. They never know what a crop will be until it is harvested — and then they do not know what the market will be. But what the farmer gets from his farming operations is new wealth, the result of his honest work, and not acquired for nothing from somebody. —Co-op News.

### TRACTOR ACCIDENT

Mrs. Clement G. Adam, a 22-year-old farmer's wife from just east of Edmonton, was killed in a tractor accident last week. It was reported that the young farm wife was standing on the tractor beside her husband, leaning on the fender, when a brace suddenly gave way, throwing her in front of a rear wheel. She died on the way to the hospital.

This is the ninth fatal traffic accident in Alberta this spring.

### Balanced Farming Plan Proves Successful

In balanced farming the emphasis is on brain-work, according to R. M. Putnam, Alberta department of agriculture. The farmer, his entire family, and an agricultural expert get together to draw up in writing a long-range plan that combines and integrates every single operation on the farm and brings it into harmony with the farmer's family as a unit — taking into consideration their individual wants, aptitudes, preferences and personalities. The idea of balanced farming has only recently taken root in Alberta, although it has been in operation in Missouri for some years.

Under this scheme each member of the family actively participates in drawing up the plan, which is literally tailor-made to the family's requirements. The farm is considered the unit and any single operation — be it gardening, wheat growing, sheep raising, cattle breeding or marketing — is viewed in its proper perspective and co-ordinated with the whole planned effort. The plan will never permit any single project — no matter how attractive — to upset the balance of a well integrated unit. Moreover, should death or sickness remove the head of the unit, the plan is always there and the remaining members of the family have the knowledge and ability to carry on with it.

Balanced farming has been very successful in Missouri, according to Mr. Putnam. Farms almost invariably start showing handsome profits after a few years' operation under the scheme.

### FAIR WARNING

M'Lord, whenever lady fair  
Comments the lustre of your hair,  
Admires your spats, adores your hat  
Or compliments you on this or that,  
Be not alarmed, be still at ease;  
No danger lurks in such as these.  
But when she se adjusts your tie,  
Pick up your dogs, M'Lord, and fly!

## WEDDINGS

HUSTINS — ADAM

In an early evening candlelight ceremony at the United Missionary Church, Edmonton, on June 30, Miss Janet Laurie Adam, daughter of Mr. and Mrs. J. A. Adam of Didsbury, pledged marriage vows with Mr. Harry Fleaman Hustins, son of Mr. and Mrs. R. Hustins of Cottrell's Cove, Newfoundland.

Rev. C. J. Hallman, assisted by Rev. A. Habermehl, performed the double-ring ceremony before an altar banked with ferns and baskets of peonies, daisies and wild roses.

Given in marriage by her father, the bride wore a white frosted organza gown. Her finger-tip veil was held in place by tulle of the veil. She carried a white-bird gift of the groom, with red sweet-heart roses and streamers.

Miss Ann Klassen attended the bride, wearing a mauve frosted organza gown, mauve hat and mittens. She carried a bouquet of pink carnations and irises.

Mr. Colin Eklund was best man and Mr. Raymond Young and Mr. Gordon Habermehl ushered the guests.

Miss Betty Lou Bronice played the wedding music. The soloist was Miss Enith Hunsperger, who sang "Because" preceding the ceremony, and "O Perfect Love" during the signing of the register.

Later a reception was held for 65 guests at Beulah Home, where the bride has been a staff member for the past ten years. The bride's mother received, according to a floral grey crepe dress and navy accessories. A corsage of pink roses was pinned at her shoulder. Mrs. A. Habermehl also received on behalf of the groom's mother. She wore a navy dress with navy accessories and had a corsage of pink roses. Hostess was Mrs. Mary A. Finlay, superintendent of Beulah Home, who wore a deep mauve dress with white accessories and a corsage of tea roses.

The bride's table was centred with a three-tiered wedding cake, topped with Sweetheart roses. Tall white taper vases of wild roses, daisies and pansies also graced the table. Miss Dorothy Shantz of Edmonton and Miss Linda Meginhir of Moose Jaw, Sask., presided at the urns. The servitors were the Misses Mary Carpenter, Jessie Cler, Anne Follen, Hazel Kaehele, Joy and Myrtle Stauffer and Bouey Hallman. Mrs. P. Lamont catered, assisted by Miss M. Loewen.

Rev. A. Habermehl was master of ceremonies.

Leaving for a honeymoon to Banff, the bride wore a light grey suit with pink accessories and a corsage of pink roses. On their return the newlyweds will make their home at Wainwright.
